SUBJECT INDEX*

A

Abscess
Eosinophilic abscess and eosinophilic pseudotumor presenting as bile duct masses: a report of 2 cases (Shanti et al). 2001;130:104-8

Academic medical centers
Impact of managed care and current governmental policies on an urban academic health care center (Rodriguez et al). 2001;130:539-45
Presidential address: routine complexity (Billiar). 2001; 130:123-32

Adenoma
Evaluation and surgical resection of adrenal masses in patients with a history of extra-adrenal malignancy (Lenert et al). 2001;130:1060-7
Intraoperative parathyroid hormone monitoring fails to detect double parathyroid adenomas: a 2-institution experience (Gauger et al). 2001;130:1005-10
Radiologic characterization of adrenal masses: the role of computed tomography-derived attenuation values (Nwariaku et al). 2001;130:1068-71

Adenosine
Adenosine analogue reduces spinal cord reperfusion injury in a time-dependent fashion (Cassada et al). 2001;130:230-5

Adenosine monophosphate
Catecholamines decrease nitric oxide production by cytokine-stimulated hepatocytes (Collins et al). 2001;130:256-64

Adenosine triphosphatase
Targeting platelet aggregation: CD39 gene transfer augments nucleoside triphosphate diphosphohydrolase activity in injured rabbit arteries (Gangadharan et al). 2001;130:296-303

Adenoviruses, human
Adenovirus-mediated Bcl-2 gene transfer inhibits apoptosis and promotes survival of allogeneic transplanted hepatocytes (Song et al). 2001;130:502-12

Adhesions
Efficacy of a hyaluronan derivative gel in postsurgical adhesion prevention in the presence of inadequate hemostasis (De Iaco et al). 2001;130:60-4

Adrenal cortex neoplasms
Evaluation and surgical resection of adrenal masses in patients with a history of extra-adrenal malignancy (Lenert et al). 2001;130:1060-7

Adrenal gland neoplasms
Evaluation and surgical resection of adrenal masses in patients with a history of extra-adrenal malignancy (Lenert et al). 2001;130:1060-7
Outcomes analysis in patients undergoing laparoscopic adrenalectomy for hormonally active adrenal tumors (Brunt et al). 2001;130:629-35
Radiologic characterization of adrenal masses: the role of computed tomography-derived attenuation values (Nwariaku et al). 2001;130:1068-71

Adrenalectomy
Evaluation and surgical resection of adrenal masses in patients with a history of extra-adrenal malignancy (Lenert et al). 2001;130:1060-7
High dehydroepiandrosterone-sulfate predicts breast cancer progression during new aromatase inhibitor therapy and stimulates breast cancer cell growth in tissue culture: a renewed role for adrenalectomy (Morris et al). 2001;130: 947-53
Iatrogenic pheochromocytomatosis: a previously unreported result of laparoscopic adrenalectomy (Li et al). 2001; 130:1072-7
Outcomes analysis in patients undergoing laparoscopic adrenalectomy for hormonally active adrenal tumors (Brunt et al). 2001;130:629-35

African Americans; *see* Blacks

Albumins
Results of a phase I trial evaluating a liver support device utilizing albumin dialysis (Awad et al). 2001;130:354-62

Ammonia
Improved survival and ammonia metabolism by intraperitoneal transplantation of microencapsulated hepatocytes in totally hepatectomized rats (Umehara et al). 2001;130:513-20

Amputation
Postoperative and late survival outcomes after major amputation: findings from the Department of Veterans Affairs Surgical Quality Improvement Program (Feinglass et al). 2001;130:21-9

Amyloidosis
Retroperitoneal follicular dendritic cell sarcoma presenting as secondary amyloidosis (Chiaramonte et al). 2001;130:109-11 (Brief clin. rep.)

Anastomosis, Roux-en-Y
Prophylactic total gastrectomy for familial gastric cancer (Lewis et al). 2001;130:612-9
Roux-en-Y internal drainage is the best surgical option to treat patients with disconnected duct syndrome after severe acute pancreatitis (Howard et al). 2001;130:714-21

Anastomosis, surgical
Edge deepithelialization: a method to prevent leakage when tubed free skin flap is used for pharyngoesophageal reconstruction (Chen et al). 2001;130:97-103

Angioplasty, transluminal, percutaneous coronary
Volume standards for high-risk surgical procedures: potential benefits of the Leapfrog initiative (Birkmeyer et al). 2001;130:408-14

Anorexia
Role of hypothalamic monoamines in nicotine-induced anorexia in menopausal rats (Zhang et al). 2001;130:133-42

Antibodies
Gene transfer of the Bcl-2 gene confers cytoprotection to isolated adult porcine pancreatic islets exposed to xenoreactive antibodies and complement (Contreras et al). 2001;130: 166-74

Antibodies, monoclonal
Accelerated internalization and detoxification of endotoxin by anti-lipopolysaccharide antibody is an Fc receptor-mediated process (Lazaron et al). 2001;130:192-7
HER2 signaling-induced microvessel dismantling (Carter). 2001;130:382-7

Antigens, CD
Targeting platelet aggregation: CD39 gene transfer augments nucleoside triphosphate diphosphohydrolase activity in injured rabbit arteries (Gangadharan et al). 2001;130: 296-303

Antigens, CD8
CD8+ T cells express a T-helper 1-like phenotype after burn injury (Cairns et al). 2001;130:210-6

Antigens, CD44
Efficacy of a hyaluronan derivative gel in postsurgical adhesion prevention in the presence of inadequate hemostasis (De Iaco et al). 2001;130:60-4

Antigens, CD95
Inhibition of Fas signaling prevents hepatic injury and improves organ blood flow during sepsis (Chung et al). 2001;130:339-45

*July, pp. 1-122; August, pp. 123-402; September, pp. 403-530; October, pp. 531-780; November, pp. 781-898; December, 899-1116.

Antimetabolites, antineoplastic
CaSm/gemcitabine chemo-gene therapy leads to prolonged survival in a murine model of pancreatic cancer (Kelley et al). 2001;130:280-8
Nuclear factor-B is upregulated in colorectal cancer (Lind et al). 2001;130:363-9
Antineoplastic agents
NF-κB-mediated chemoresistance in breast cancer cells (Weldon et al). 2001;130:143-50
Aortic aneurysm
Collagen versus gelatin-coated Dacron versus stretch polytetrafluoroethylene in abdominal aortic bifurcation graft surgery: results of a seven-year prospective, randomized multicenter trial (Prager et al). 2001;130:408-14
Predictors of health after operation for aortoiliac occlusive and aneurysmal disease (Nackman et al). 2001;130:370-7
Aortic aneurysm, abdominal
Secondary aortoduodenal fistula (Lau et al). 2001;130:526-7
Volume standards for high-risk surgical procedures: potential benefits of the Leapfrog initiative (Birkmeyer et al). 2001;130:408-14
Apolipoproteins
Apolipoprotein J inhibits the migration and adhesion of endothelial cells (Sivamurthy et al). 2001;130:204-9
Apoptosis

Pancreas transplantation
Pancreas transplantation in Ohio: a 15-year outcomes analysis (Schulak et al). 2001;130:546-53

Pancreatectomy
Roux-en-Y internal drainage is the best surgical option to treat patients with disconnected duct syndrome after severe acute pancreatitis (Howard et al). 2001;130:714-21

Pancreatic fistula
Roux-en-Y internal drainage is the best surgical option to treat patients with disconnected duct syndrome after severe acute pancreatitis (Howard et al). 2001;130:714-21

Pancreatic neoplasms
CaSm/gemcitabine chemo-gene therapy leads to prolonged survival in a murine model of pancreatic cancer (Kelley et al). 2001;130:280-8
Indications and results of liver resection and hepatic chemoembolization for metastatic gastrointestinal neuroendocrine tumors (Yao et al). 2001;130:677-85
Nonfunctioning islet cell carcinoma of the pancreas: survival results in a contemporary series of 163 patients (Solorzano et al). 2001;130:1078-85

Pancreaticoduodenectomy
Pancreaticoduodenectomy in a patient with ampullary carcinoma and situs inversus (Bilimoria et al). 2001;130:521-4

Pancreatitis
Duodenal duplication cysts: a rare cause of acute pancreatitis in children (Keller et al). 2001;130:112-5 (Brief clin. rep.)

Pancreatitis, acute necrotizing
Regional effects of nafamostat, a novel potent protease and complement inhibitor, on severe necrotizing pancreatitis (Keck et al). 2001;130:175-81
Roux-en-Y internal drainage is the best surgical option to treat patients with disconnected duct syndrome after severe acute pancreatitis (Howard et al). 2001;130:714-21

Parathyroid glands
Parathyroid-produced angiopoietin-2 modulates angiogenic response (Carter and Ward). 2001;130:1019-27
In vitro accumulation of technetium-99m-sestamibi in human parathyroid mitochondria (Hetrakul et al). 2001;130:1011-8

Parathyroid hormones
Intraoperative parathyroid hormone monitoring fails to detect double parathyroid adenomas: a 2-institution experience (Gauger et al). 2001;130:1005-10

Intraoperative quick parathyroid hormone versus same-day parathyroid hormone testing for minimally invasive parathyroidectomy: a cost-effectiveness study (Agarwal et al). 2001;130:963-70

Parathyroid neoplasms
Intraoperative parathyroid hormone monitoring fails to detect double parathyroid adenomas: a 2-institution experience (Gauger et al). 2001;130:1005-10

Parathyroidectomy
Indications and results of video-assisted parathyroidectomy by a lateral approach in patients with primary hyperparathyroidism (Henry et al). 2001;130:999-1004
Intraoperative parathyroid hormone monitoring fails to detect double parathyroid adenomas: a 2-institution experience (Gauger et al). 2001;130:1005-10
Intraoperative quick parathyroid hormone versus same-day parathyroid hormone testing for minimally invasive parathyroidectomy: a cost-effectiveness study (Agarwal et al). 2001;130:963-70
Parathyroidectomy promotes wound healing and prolongs survival in patients with calciphylaxis from secondary hyperparathyroidism (Girotto et al). 2001;130:645-51
Reexploration for symptomatic hematomas after cervical exploration (Burkey et al). 2001;130:914-20
Reoperation for hyperparathyroidism in multiple endocrine neoplasia type 1 (Kivlen et al). 2001;130:991-8

Patient admission
Admitting service influences the outcomes of patients with small bowel obstruction (Malangoni et al). 2001;130:706-13

Pectus excavation; *see* Funnel chest

Pelvic exenteration
Indications for immediate tissue transfer for soft tissue reconstruction in visceral pelvic surgery (Khoo et al). 2001;130:463-9

Perineum
Indications for immediate tissue transfer for soft tissue reconstruction in visceral pelvic surgery (Khoo et al). 2001;130:463-9
Primary closure of complicated perineal wounds with myocutaneous and fasciocutaneous flaps after proctectomy for Crohn's disease (Hurst et al). 2001;130:767-73

Platelet aggregation
Targeting platelet aggregation: CD39 gene transfer augments nucleoside triphosphate diphosphohydrolase activity in injured rabbit arteries (Gangadharan et al). 2001;130:296-303

Pneumonia
Cytokines and the pathogenesis of nosocomial pneumonia (Muchistedt et al). 2001;130:602-11

Polytetrafluorethylene
Collagen versus gelatin-coated Dacron versus stretch polytetrafluoroethylene in abdominal aortic bifurcation graft surgery: results of a seven-year prospective, randomized multicenter trial (Prager et al). 2001;130:408-14

Postoperative complications
Edge deepithelialization: a method to prevent leakage when tubed free skin flap is used for pharyngoesophageal reconstruction (Chen et al). 2001;130:97-103
The effect of hospital vascular operation capability on outcomes of lower extremity arterial bypass graft procedures (Ebaugh et al). 2001;130:561-9
The effect of surgical site infections on outcomes and resource utilization after liver transplantation (Hollenbeak et al). 2001;130:388-95

Postoperative hemorrhage
Efficacy of a hyaluronan derivative gel in postsurgical adhesion prevention in the presence of inadequate hemostasis (De Iaco et al). 2001;130:60-4
Experimental evaluation of photocrosslinkable chitosan as a biologic adhesive with surgical applications (Ono et al). 2001;130:844-50

Postoperative period
Postoperative and late survival outcomes after major amputation: findings from the Department of Veterans Affairs Surgical Quality Improvement Program (Feinglass et al). 2001;130:21-9

Preoperative care
Complete 5-year follow-up of a prospective phase II trial of preoperative chemoradiotherapy for esophageal cancer (Posner et al). 2001;130:620-8

Proctocolectomy, restorative
Primary closure of complicated perineal wounds with myocutaneous and fasciocutaneous flaps after proctectomy for Crohn's disease (Hurst et al). 2001;130:767-73

Professional practice
Cheaper health care (Fischer). 2001;130:529 (Letter reply)

Program evaluation
Measuring service-specific performance and educational value within a general surgery residency: the power of a prospective, anonymous, Web-based rotation evaluation system in the optimization of resident satisfaction (Kirton et al). 2001;130:289-95

Prostaglandin-endoperoxide synthase
Elevated expression of cyclooxygenase-2 contributes to immune dysfunction in a murine model of trauma (Mackrell et al). 2001;130:826-33

Protease inhibitors
Regional effects of nafamostat, a novel potent protease and complement inhibitor, on severe necrotizing pancreatitis (Keck et al). 2001;130:175-81

Protein kinase C
Protein kinase dampens the secretory response of model intestinal epithelia during ischemia (Yoo et al). 2001;130:310-8

Protein-serine-threonine kinases
Cyclic strain activates the pro-survival Akt protein kinase in bovine aortic smooth muscle cells (Chen et al). 2001;130:378-81

Pulmonary embolism
Venous thromboembolism in trauma patients: a review (Rogers). 2001;130:1-12

Q

Quality of health care
Cheaper health care (Akhondi). 2001;130:528-9 (Letter)

Radical neck dissection
Impact of modified radical neck dissection on biochemical cure in medullary thyroid carcinomas (Weber et al). 2001;130:1044-9
Radioisotopes
Intradermal isotope injection is superior to intramammary in sentinel node biopsy for breast cancer (Martin et al). 2001;130:432-8
Radiotherapy, adjuvant
Complete 5-year follow-up of a prospective phase II trial of preoperative chemoradiotherapy for esophageal cancer (Posner et al). 2001;130:620-8
Receptor protein-tyrosine kinase
Parathyroid-produced angiopoietin-2 modulates angiogenic response (Carter and Ward). 2001;130:1019-27
Receptors, endothelin
Effects of endothelin receptor antagonist TAK-044 on small bowel autograft from a controlled non-heart-beating donor model (Sunose et al). 2001;130:819-25
Receptors, Fc
Accelerated internalization and detoxification of endotoxin by anti-lipopolysaccharide antibody is an Fc receptor-mediated process (Lazaron et al). 2001;130:192-7
Receptors, prostaglandin
Prostaglandin E2 receptors EP2 and EP4 are down-regulated in human mononuclear cells after injury (Strong et al). 2001;130:249-55
Receptors, serotonin
Both serotonin and a nitric-oxide donor cause chloride secretion in rat colonocytes by stimulating cGMP (Stoner and Kellum). 2001;130:236-41
Rectovaginal fistula
Repair of recurrent rectovaginal fistulas (Halverson et al). 2001;130:753-8
Rectum
Congenital duplication of the rectum: endoscopic and radiologic appearance of an unusual condition (McLeod and Cohen). 2001;130:895-6
Recurrent laryngeal nerve
Electromyographic nerve identification during resection of an intrathoracic goiter via a right anterolateral thoracotomy using a novel method (Kastl et al). 2001;130:93-6
